### Bill Summary

Makes changes regarding the accounting treatment of various transportation-related accounts; provides a mechanism for increased security for certain transportation bonds; extends the use of miscellaneous revenue for the payment of debt service of transportation bonds; and provides a process for the relocation of utilities pursuant to the constructions of the high-speed rail project. Specifically, the bill creates a class of transportation general obligation bonds known as designated bonds, which would be a portion of the transportation general obligation bonds issued pursuant to Proposition 1B of 2006. The bill would provide for transfer of a certain amount of weight fee revenue to the Transportation Debt Service Fund for the purpose of directly paying the debt service on the designated bonds, rather than providing for payment of the debt service indirectly through reimbursement of the General Fund. These weight fee revenues would be deposited in the newly created Transportation Bond Direct Payment Account in the Transportation Debt Service Fund and would be continuously appropriated for that purpose. To the extent the transferred weight fee revenues are insufficient to pay all the debt service on the designated bonds, the General Fund would remain responsible for the remaining debt service. The weight fee revenue to be used to pay debt service on the designated bonds would generally be the amount of weight fee revenue received by the Controller from the 15th day to the last day of each month. The remaining weight fee revenue would be used to pay the debt service on other transportation general obligation bonds. This bill would provide that the state covenants with bondholders of designated bonds that it will not alter, amend, or restrict the statutory provisions in this bill that provide for the transfer of weight fees to the Transportation Debt Service Fund or the Transportation Bond Direct Payment Account, and that it will not reduce weight fees below a specified amount on and after the first date that designated bonds are issued. The bill would enact other related provisions.
